Kentmere Healthcare Consulting Corporation Expands Team

WILMINGTON, Del. (Nov. 2, 2018) ... The lab benefit management firm Kentmere Healthcare Consulting Corporation headquartered in Wilmington, Del. has expanded its analytical team, recently adding healthcare industry veteran Lisa Wilkinson to the team as lab benefit management program analyst.

“Lisa is a tremendous addition to our team,” said Jeffrey M. Petrizzi, president, Kentmere Healthcare Consulting Corporation. “Her extensive background in statistical analysis is already helping us serve our rapidly growing client base and feed the ongoing need for more data insights that health plans need to be successful today.”

Wilkinson has worked in healthcare statistical analysis for more than 20 years and most recently worked for AstraZeneca. She holds a Master of Science in Statistics and a Bachelor of Science in Mathematics from the University of Delaware.

An independent firm, Kentmere Healthcare Consulting has provided its Lab Benefit Management Program to health plans operating in all 50 states in its nearly 20-year history.

Kentmere Healthcare Consulting works solely with health plans to select the right lab network and new testing technology to improve all quality and service measures for members and physicians, while significantly reducing costs for members and employers. Kentmere Healthcare Consulting oversees implementation of the best lab outpatient management practices for insurers around the country.

###

About Kentmere Healthcare Consulting Corporation

Since 2000, Kentmere Healthcare Consulting Corporation has provided its proprietary outpatient Kentmere Laboratory Benefit Management Program™ for the managed care industry. Kentmere Healthcare Consulting - an independent firm - serves national and regional health plans; is not a laboratory; and does not work for or with laboratory providers. Based in Wilmington, Del., Kentmere Healthcare Consulting delivers a thorough claims analysis that paints a clear picture for health plan executives of where their issues are and how they can save tens of millions of dollars annually, while maximizing benefits. In every instance, Kentmere Healthcare Consulting’s Laboratory Benefit Management Program reduces its clients’ actual total yearly cost of laboratory testing by 10-20 percent (this does not include trend reduction or downstream cost savings), while still delivering the same level of service - or better. Kentmere Healthcare Consulting’s client ROI is greater than 20:1.
